THE OHIO STATE UNIVERSITY

COLLEGE OF FOOD, AGRICULTURAL,
AND ENVIRONMENTAL SCIENCES

Program

11:30 am – 12:00 pm Registration / Lunch For Those Pre-Registered by 08/06/2023

**2023 Green Industry Summer Session
PRE-REG DEADLINE, 08/06/2023
LUNCH AVAILABLE TO ONLY THOSE
THAT HAVE PRE-REGISTERED**

TIME	PLANT TRACK	PEST TRACK
12:00 pm – 1:00 pm	<p>Developing a Turfgrass Fertilizer Program <i>Tyler Carr, OSU, Horticulture & Crop Science (HCS)</i></p> <p>A healthy turfgrass system requires fertilizer to increase ability to recover from biotic and abiotic stressors, including pests. Learn steps to develop a fert. program that is cost-effective, enhances turf recovery, and promotes limited pesticide inputs.</p>	<p>The Year of Aphids and Lace Bugs <i>Curtis Young, OSU Extension</i></p> <p>Learn more about these two insect pests that we have seen a lot of this season – including identification characteristics, their life-cycle, reproduction, how they feed and the damage they cause, and management options in the landscape.</p>
1:05 pm – 2:05 pm	<p>Ornamental Grasses for Ohio <i>Beth Scheckelhoff, OSU Extension</i></p> <p>Learn the latest and greatest about ornamental grasses for Ohio landscapes including identification characteristics, size, and site considerations that you will want to consider when adding them to the landscape.</p>	<p>Discovering the Ohio Forest Pest Management Guide <i>Kathy Smith, OSU, School of Environment and Natural Resources</i></p> <p>Come discover some tree pests that you may encounter and how this new field guide can help in the identification of those pests.</p>
2:10 pm – 3:10 pm	<p>All About Hydrangeas <i>Chris Foley, Owens Community College</i></p> <p>This session will help answer the questions that you or your clientele have about this popular genus – do they flower on old wood or new wood, when should they be pruned, how large will it get, preferred site considerations, and more.</p>	<p>Proper Irrigation to Maximize Effectiveness of Pesticides and Fertilizers <i>Tyler Carr, OSU, HCS</i></p> <p>Turfgrass requires water for growth and development, but how much water is enough? This presentation discusses the methods for determining when to irrigate and how much water to apply, tools to fine-tune irrigation in lawns, and how these practices affect pesticide and fertilizer management.</p>
3:15 pm -4:15 pm	<p>Popular Herbaceous Plants and Their Pests <i>Beth Scheckelhoff, OSU Extension</i></p> <p>Thinking of adding herbaceous plants to the landscape? Learn more about some, the pests that you may encounter, and considerations for management to protect the plants from pests while protecting pollinators too.</p>	<p>Spotted Lanternfly, Boxwood Tree Moth and Beech Leaf Disease <i>Amy Stone, OSU Extension</i></p> <p>Three pests on the radar – two in NW Ohio, the other in SE Michigan and SW Ohio. Learn about each, how to report each pest and management options.</p>

Name _____

Address _____

_____ State _____ Zip _____

Phone _____

Email _____

Affiliation – green industry business, park district, volunteer etc. _____

Additional Registrants _____

Lunch is provided to everyone who preregisters by deadline! Any special food requirements? Let us know.

___ # attending x \$ 30.00 each = \$ _____

Send registration to: Ohio State University Extension at Toledo Botanical Garden, 5403 Elmer Drive, Toledo, OH 43615

Email as an attachment to: stone.91@osu.edu with GISS on the subject line.

Registration online: https://osu.az1.qualtrics.com/jfe/form/SV_9SJDW_IXQc19Me8K (payment cannot be made online)

Make Checks Payable to: OSU Lucas County
Purchase Order Option Available

Questions? Email at stone.91@osu.edu, call 419-574-0986 (office), or 419-392-1308 (cell).
